Adhoc Humanitarians Orchestra, together with the soloists and interval musicians, brings together a staggeringly generous array of some of the best professional and top amateur musicians in and around London, determined to give their time for free, to play because they care about the plight of the world, love the music and enjoy making a difference, with pizzazz. All donations raised by tonight's concert go direct to the three Tibetan projects, intact, because uniquely, all orchestral and concert costs are funded separately. Altruism, in tune.
